HEAVY DUTY CARRIER

MTI/CAST UVT's all share a universal Heavy Duty Carrier with an all mechanical powertrain. Designed to be versatile and durable this carrier can accommodate a multitude of functions ranging from Fuel/lube truck to man-basket or cement Mixer. With an EPA/MSHA Certified engine and dual sided drivers environmental Cab, **MTI/CAST UVT's** contribute both function and form. With features such as variable displacement hydraulics, fail-safe brakes, and a Dana / John Deere powertrain, all **MTI/CAST UVT's** ride a versatile and dependable platform.

LOAD SENSING VARIABLE DISPLACEMENT HYDRAULICS

MTI/CAST UVT's come standard with load sensing variable displacement hydraulics which reduce heat and fuel costs, while improving the life of hydraulic components.
